A further 11 Council houses were under construction at the end of the year, which includes a Warden's house in connection with the old people's bungalows at Llanfairpwll.

The total number of Council-owned dwellings at the end of the year (1965) was 746 and the following table shows the numbers and types of dwellings in the various parishes at the 31st December, 1965.

(TABLE OVERLEAF)

It will be seen that the majority of the Council-owned dwellings are of 3 bedrooms and that since 1939 the Council has built and acquired 628 dwellings.

(b) Private Building

During 1965, 50 new private dwellings were built and the table below shows the numbers of private and Council dwellings completed since 1957.

A further 40 private dwellings were under construction at the end of the year and since 1.4.45 a total of 281 new private houses have been completed in the district.

Housing Improvements

Private Grant-Aided Improvements

During 1965, 38 applications for Discretionary Grants and 31 applications for Standard Grants were approved.

Improvements to Pre-War Council Houses

Since 1961, when the Council decided to provide bathrooms and water-closets in the 178 dwellings lacking such amenities, at the end of December 1965, 137 had been so modernized, the new facilities being bath, wash-hand basin, water-closet and hot water supply to all fittings. The work of improving the remaining 41 older houses continues.

Rent Act, 1957 - Certificates of Disrepair

No applications were received and no certificates of disrepair were issued during the year.

Housing Act, 1961 - Section 24, Revocation and Modification Orders

This Section authorises local authorities to make Orders revoking or modifying Clearance Orders, subject to confirmation by the Minister of Housing and Local Government.

As the result of undertakings given by owners, the following table indicates the action which has been taken during the year.

WATER SUPPLY

(a) Supplies Other than County Mains

During the year a total of 16 samples were taken for Bacteriological examination, of water from wells and rain water storage systems supplying either single private properties or groups of dwellings. Eleven samples were found to contain faecal coli. which indicates contamination with excretal matter, the remaining five samples being satisfactory.

Upon receipt of unsatisfactory reports, advice is given on protective work to prevent contamination and in the case of public wells, the County Water Department is informed.

(b) Mains Water Supply

Complaints received from time to time of unsatisfactory quality of mains water are passed on to the County Water Authority.

The number of dwellings supplied from public mains is:-

(a) Direct to houses	2,963
(b) By means of standpipe	34

and the estimated number of houses served by wells/private sources is 650.

DRAINAGE AND SEWAGE DISPOSAL

Malltraeth, Bethel and Hermon

The construction works on the scheme to sewer these three villages was completed during the year.

Llandegfan

The proposed sewerage and sewage disposal scheme to serve most of the parish of Llandegfan commenced in 1965 and completion is anticipated by mid 1967.

Llangaffo

All arrangements in connection with this scheme have been completed and work is expected to start early in 1966.

Pentraeth and Llangoed

Consultations and other preparatory work in respect of these schemes is well advanced and it is hoped that work at Pentraeth will be commenced by late 1966 or early 1967.

The extent to which the Rural District is provided with main drainage is that the villages of Newborough, Brynsiencyn, Llanfairpwll, Star Penmynydd, Gaerwen, Holland Arms, Dwyran, Malltraeth, Bethel and Hermon are served by public sewers.

There are also 19 small treatment plants serving Council House estates in parishes not provided with main drainage.

CARAVAN SITES AND CONTROL OF DEVELOPMENT ACT, 1960

During 1965 three new Site Licences were granted. These were in respect of three individual caravans.

At the end of the year the Registers of Licences showed that the number of Licensed sites in the district was 34 with the standings for a total of 346 caravans.

(TABLE OVERLEAF)

REFUSE COLLECTION AND DISPOSAL

Tipping continued at the two disposal tips at Porthamel and Llangaffo, both house and trade refuse being collected once a fortnight.

Refuse is collected wholly by direct labour, the purpose-made Karrier Lorry is supplemented as need arises by the Council's ordinary lorry. Collection is kerbside but in properties where the occupants are elderly or infirm, the receptacles are collected from the premises and returned after emptying.

There is a workman employed full-time at the tip and the work is, as far as is practicable, without the aid of earth-moving equipment, being carried out in accordance with the recommendations of the Ministry of Health. During the summer months the tips are regularly treated with insecticide and frequent visits are also made to prevent infestation by rats and mice.

Litter bins have been provided at bus-stops, lay-bys, and other places frequented by visitors and are emptied regularly.

During the summer an earth-moving-machine was hired to prepare further tipping space at the Porthamel tip, and further progress and negotiations took place to obtain land as a refuse depository.

Preliminary enquiries are now taking place with a view to re-organizing this service so as to provide a once weekly collection throughout the district.

PUBLIC CONVENIENCES

Up to the end of 1965 the Council had provided one public convenience at Llanfairpwll and the one under construction at Llanddwyn Beach, Newborough, has now been completed.

There is a noticeable increase in the number of visitors to the district every year and from the public health aspect alone it is obvious that more public conveniences are required.

The need for additional sanitary accommodation in certain parts of the foreshore is apparent and this matter will, no doubt, be given early consideration.
